Summary

Full Stack Developer and B.Tech (CS & IT) undergraduate specializing in **MERN stack**, **Next.js 15**, **TypeScript**, and **AI-driven product development**. Shipped two production-grade platforms featuring **JWT-based authentication**, **cloud-native media pipelines**, **payment gateway integration**, and **LLM-powered content generation**. Recipient of the **INSPIRE Scholarship (SHE)**, Govt. of India — awarded for ranking in the **top 1% nationally**.

Education

Mahatma Jyotiba Phule Rohilkhand University

Bachelor of Technology — Computer Science & Information Technology

Bareilly, India

Aug 2023 – May 2027

Skills

Languages	C++, Java, JavaScript, SQL, Typescript
Frontend	React.js, Next.js 15, Tailwind CSS, Redux Toolkit, REST API Consumption
Backend	Node.js, Express.js, RESTful API Design, JWT, Bcrypt, Mongoose ODM
Databases	MongoDB, PostgreSQL, Drizzle ORM, Schema Design
Tools & Cloud	Git, GitHub, Vercel, Cloudinary, Razorpay, Clerk, Google Gemini API, YouTube Data API

Projects

SkillBridge — Scalable Ed-Tech Marketplace | *React.js, Node.js, Express.js, MongoDB, Razorpay, Cloudinary, JWT* [Link](#)

- Architected a **full-stack Ed-Tech platform** with **dual-role dashboards** for instructors (course CRUD, analytics, media upload) and students (enrollment, progress tracking, ratings).
- Implemented **Role-Based Access Control (RBAC)** via industry-standard **JWT authentication**, **OTP verification**, and **Bcrypt password hashing** — securing multi-role user flows end-to-end.
- Integrated **Razorpay payment gateway** handling complete **transaction lifecycle** — checkout, webhook verification, and auto-enrollment on payment success.
- Deployed **Cloudinary CDN** for adaptive media delivery of course videos and documents; content authored in **Markdown** for structured front-end rendering.

AI Course Generator — LLM-Powered Learning Platform | *Next.js 15, PostgreSQL, Google Gemini API, Drizzle ORM, YouTube Data API v3, Vercel* [Link](#)

- Built an **AI-first course generation engine** using **Next.js 15 App Router** with **Server Components**, **streaming**, and **edge caching** for sub-second page loads.
- Integrated **Google Gemini API** to autonomously generate **course outlines**, **module objectives**, and **lesson content** from a single topic prompt — reducing content creation time by 90%.
- Wired **YouTube Data API v3** for **semantic video matching**, auto-embedding relevant educational videos into each generated module without manual curation.
- Modeled relational data with **PostgreSQL + Drizzle ORM** for **type-safe queries** and schema migrations; shipped to production on **Vercel** with CI/CD pipeline.

Achievements & Certifications

- INSPIRE Scholarship (SHE) — Govt. of India**: Awarded for **top 1% national rank** in academic excellence — India's most prestigious merit-based STEM scholarship. 2023
- HackerRank Frontend Developer (React) Certified** — Passed official role certification test; validated advanced **React.js**, **component architecture & state management** proficiency. Mar 2026
- DSA Supreme 4.0 Batch — Code Help (Love Babbar)**: Completed rigorous **5-month DSA programme** covering advanced algorithms, trees, graphs, and DP (Serial No. BNU3ZDGT). Nov 2025
- Full Stack Developer Bootcamp — GeeksforGeeks**: End-to-end training in **system design**, **REST API architecture**, and full-stack deployment workflows. 2023

Hobbies & Extra Curricular

Hobbies	Competitive Programming, Open-Source Contribution, Tech Blogging
Extra Curricular	Mentors juniors in DSA and full-stack development ; active contributor to college technical fests and hackathons.
